- Early bug detection
- Less human resources

4. What are the advantages of Selenium?

- Language and Framework Support.
- Open Source Availability.
- Multi-Browser Support.
- Support Across Various Operations.
- Ease of Implementation.

Module-5

- Reusability and Integrations.
- Flexibility.
- Parallel test execution and faster market launch.

5. Why should testers opt for Selenium and not QTP?

Selenium, however, supports a wide range of programming languages. QTP/UFT test scripts run only on the Windows environment. They cannot be run across all browsers. On the other hand, Selenium is OS independent and allows test scripts to run across all browsers.
